

mailing guidelines

Sizing Guidelines:

- **Mail Piece MINIMUM size:** 5" width x 3 1/2" height x 0.007" thick
- **Postcard MAXIMUM size:** 6" width x 4 1/4" height x 0.016" thick
- **Letter MAXIMUM size:** 11 1/2" width x 6 1/8" height x 0.25" thick

Note: A mail piece must exceed at least one of the maximum letter dimensions to be categorized as a flat. If the mail piece does not exceed the letter requirements, it must be tabbed and mailed as a letter.

- **Flat MINIMUM size:** 6" width x 5" height x 0.009" thick
- **Flat MAXIMUM size:** 12" width x 15" height x 0.75" thick

Postage Guidelines:

A display of postage paid must be applied to all pieces of mail. Options include:

- **Permits:** The most effective way to apply postage. An indicia bearing the permit number of your company or mail house is imprinted on your mail piece either at the time of printing or mailing.
- **Stamps:** Not just for First Class mail, there is a stamp for each permit type. *Also, letters with stamps have a higher rate of return than mail with indicia.*
- **Meter:** Used for First Class mail only. Postage amount prints onto each mail piece.

Mailing Lists:

The format of the mailing list is critical to ensure accurate delivery of the piece.

Below is a sample of a good and bad mailing list:

Acceptable:

(First Name) (Last Name) (Address 1) (Address 2) (City) (State) (Zip)

Unacceptable:

(First Name) (Last Name) (Address, City, State, Zip)
